Custom Embedded Cameras for Transportation Management

Excellence. Every day. Every time.

Keeping all kinds of traffic flowing smoothly, safely, and skillfully

- Hate sitting in traffic jams?
- Like knowing where a free parking spot is available?
- Like viewing your ferry or cruise ship dock safely and on time?
- Like seeing your train is on track and on schedule?
- Like a secure video feed showing that huge truck load is safe?

So do we! That's why Videology collaborates with the leading OEMs as well as federal, state and municipal governments in major monitoring systems the world over. We help to keep the planet moving including people, cars, trains, boats, cranes, intermodal, mass transit and more.

Our cameras assist in saving fuel, saving time, and providing the security we all need.

TRANSPORTATION INFRASTRUCTURE

We have the cameras to monitor it all!

Smooth and flawless movement of vehicles on roads and transportation systems is crucial for our fast-paced world. When a commercial off-the-shelf imaging system falls short, this is where Videology excels.

We are a proven and trusted provider to help you design, develop, and then ship thousands of cameras per month globally.

With countless transportation deployments, we value your input and understand what you need in custom camera module design... for just about any transportation management application, anywhere on the planet!

Setting the standard for excellence in custom camera module design

We offer a unique combination of imaging technologies and design expertise for any traffic and transportation application. We can design the best custom embedded camera solution tailored for your specifications; be it a modification of an existing product, or our specialty - a new bespoke design.

We have what your large-scale transportation and mobility system needs:

4K
High Resolution

Compact Form
Factor

Robust
Design

10x - 55x
Optical Zoom

Flexibility

Multiple Control
Protocol Support

Zoom Block Cameras

Our extensive family of Zoom Block cameras is the right choice for safe, reliable and long-lasting mobility applications. Options from 10x to 55x optical zooming, 4K resolution, high sensitivity, wide dynamic range, global shutters, HDR capabilities and beyond. All can be customized to meet your specific requirements.

IP Cameras

We offer a range of 4K and 1080p IP board cameras that are small, compact and secure to fit in those tight spots with size and space constraints.

Edge AI Cameras

Need to go to the next level of smart transportation and mobility? Our first-to-market Edge AI enabled **SCAiLX** Zoom Blocks and camera-agnostic SCAiLX SoM boards are already shifting the paradigm of intelligent transportation systems.
